Subject: Microsoft Settlement

To: Dept. of Justice

We would like to express our viewpoint on the Microsoft case. We believe that the settlement reached with the Federal Government and the nine states was a reasonable settlement and that it is not in the best interest of the United States economy to prolong the litigation. The settlement reached is in the best interest of all concerned and should be imposed on the remaining states that did not accept the settlement. In short - let's put an end to the endless and counterproductive litigation and allow the free enterprise market to function.

Sincerely,

Joe Feege
